RESEARCH INTERESTS

Health Economics, Labor Economics, Applied Microeconomics

EDUCATION

Emory University, Atlanta, GA — Spring 2027 (Expected)
Ph.D. in Economics
M.S. in Economics

Ball State University, Muncie, IN — Spring 2022
B.S. in Economics and Finance, *Summa Cum Laude*
Minor in Mathematics

RESEARCH

Job Market Paper

"Crossing State Lines: Licensure Compacts, Provider Mobility, and Mental Health"

Abstract. Interstate licensure compacts aim to address provider shortages by reducing barriers to practicing across state lines. Leveraging staggered adoption of the IMLC and PSYPACT, I find that compact participation increases multi-state licensure among eligible providers but find no consistent evidence of improvements in self-reported mental health, SSRI prescribing, or suicide rates. Reducing barriers to interstate practice may therefore be insufficient to improve population mental health.

Working Papers

"The Effects of Interstate Licensure Compacts on Care Delivery"

Abstract. Leveraging staggered adoption of the Interstate Medical Licensure Compact, I find that adoption increases multi-state licensure, primarily through physicians adding a second state license. Baseline estimates indicate declines in outpatient visit volume and measured telehealth use but little change in new patient share or average visit length. However, pre-treatment trends and sensitivity to alternative specifications complicate interpretation, providing limited evidence that expanded licensure translates into broader changes in care delivery.

WORK EXPERIENCE

Graduate Research Assistant to Dr. Sara Markowitz — Dec. 2024 – June 2025
Emory University, Department of Economics — Atlanta, GA

- Cleaned, organized, and analyzed data from the 2016–2023 National Survey of Children's Health.
- Estimated two-way fixed effects models exploiting changes in state minimum wage and earned income tax credit policies to examine effects on child and parent nutritional health.

SKILLS

Programming: Stata, R, Python
Data Analysis: Data Cleaning, Data Management, Data Visualization, Statistical Analysis
Software: Git/GitHub, LaTeX, Microsoft Excel

CONFERENCE PRESENTATIONS

"The Effects of Interstate Licensure Compacts on Mental Health" — Tampa, FL
Southern Economic Association Annual Meeting — November 2025

FELLOWSHIPS

Laney Graduate School Fellowship, Emory University — 2022–Present

TEACHING

Instructor of Record

- ECON 320 Lab: Econometrics (Spring 2026)

Teaching Assistant

- ECON 372: Economics of Health Care Markets (Fall 2023)
- ECON 415: Behavioral Economics (Fall 2024)
- ECON 371: Health Economics (Spring 2025)
- ECON 220: Data Science for Economists (Fall 2025)
